

**Position: Service Technician – Fire Suppression, Bison Fire Protection Inc (Brandon Branch) (Full-time, Permanent)**

**The Company:** Bison Fire Protection Inc., through its fire extinguisher/automatic suppression, automatic sprinkler and alarm divisions, delivers a full offering of superior-quality fire protection products and services to a broad range of organizations via its branches in Saskatchewan, Manitoba and Northwestern Ontario. Our professional, highly trained staff have the capacity to ensure our customers have a complete and fully functional fire protection system that will ensure a smooth and continuous flow of business.

**Position Summary** Under the direction of the Fire Suppression Supervisor, this role is responsible for inspections, installations and repairs to fire suppression systems, fire extinguishers and fire hoses as required by local and national fire codes. The technician fills out the inspection report and documents the job time on required time sheet for the work order and submits to the Operations Manager and/or Service Coordinators as required. This role will also entail cross-selling or upselling of other Bison company products and services where appropriate to promote customer retention and high quality customer services. This role will work closely with the Service Coordinators and will be required to travel and be available for rotational on-call emergency services.

**Position Responsibilities:**

- Perform and complete service orders for inspections, installations, repairs and product sales as scheduled and/or assigned by the Service Coordinator or Operations Manager in a time sensitive manner
- Advises Service Coordinator and/or Operations Manager of any unexpected changes in assigned work order schedule based on customer needs and/or parts or service issues
- Examines work, tests and ensure that equipment is functioning properly before leaving the shop or the customer's location
- Delivers equipment or product orders to customers as required
- Completes the inspection report information and provides to Service Coordinators
- Identifies and documents deficiencies on a "Proposal for Repairs" report and submits to Service Coordinators for further action
- Actively pursues opportunities for cross or up-selling of other Company products and services
- Must ensure the service vehicle has sufficient tools, equipment and product on hand for the required work order completion
- Prepares and completes a "inventory request form" for any missing or required parts and/or products and places the written request in the "order bin" outside of the purchasing office in a timely manner for the Inventory & Purchasing Coordinator to handle
- Provides daily feedback to Service Coordinator on the status and outcome of all assigned service orders and inspections and any additional service work to be scheduled as a result
- Submits completed service order and/or inspection paperwork to the Service Co-ordinator, with all parts and work hours accurately completed to ensure proper billing to the customers on a daily basis. Maximum time frame for submission of documents is weekly; namely by Friday
- Must report any vehicle maintenance issues or pending repairs required to the Operations Manager as soon as they are observed
- Must complete, obtain and maintain all required certifications and safety training for performance of duties
- Must be available to be on emergency call-outs on a rotational basis
- Must be willing to travel as directed by the Operations Manager
- Must attend and participate in any new product or service training requirements
- Must attend and participate in all safety, service and general staff meetings as required

**Position Requirements:**

- Minimum education requirement: Grade 12 graduate
- Additional education and/or training from a technical college program is highly desirable
- Must have a working knowledge of current local and national fire codes
- Must be willing to obtain additional training and education to keep current on industry changes, new products and processes and other relevant information
- Must have a minimum 3 to 5 years direct industry experience
- Must have ability to multi-task and work effectively with minimal direction or supervision

- Must be very flexible and able to adapt easily to schedule changes
- Must be an effective problem solver while demonstrating good judgement
- Must possess effective organization and time management skills
- Must have and maintain a valid Manitoba Drivers' License and clean driving abstract
- Must present a professional image & behaviours on job sites or in public when dealing with customers, vendors, other service providers and with fellow staff members
- Must have effective verbal and written communication
- Must demonstrate effective people skills and demonstrate positive team player attitude

We offer competitive compensation and an excellent benefits package.
